Southeast Centers chose Hawkins to redevelop this 81,000 SF Publix-anchored Shopping Center. The center creates a neighborhood center reflective of the high profile, upscale communities surrounding the development.

*“This project was very challenging given that it was a Publix tear down and rebuild in a very active center, had an accelerated schedule, involved two new buildings, multiple building demolitions and tenant relocations. Despite all of these challenges, the Publix building was turned over to the tenant **11 days ahead of schedule**. The value of this can not be overstated.”*
